THERE HAS BEEN A SIGNIFICANT NUMBER OF DOCUMENTED VOTES RECEIVED TO DECLARE THAT THE MOTION HAS PASSED AND THAT THE REMAINING STATE AND DISTRICT TOURNAMENTS WILL END IMMEDIATELY AND WILL NOT START UP AGAIN UNTIL OCTOBER 1, 2020. THE BOARD MEETING FOR TOMORROW MARCH 14, 2020 IS ALSO CANCELED.

I want to thank all the board members for their fast replies and the casting of their votes.

This was another hard decision but the majority felt that out of concern this bold move was warranted.

I ask all District Presidents and State Representatives reach out this weekend to all the shufflers in their district that usually travel to State Tournaments that Monday there is no Lakeland Tournament and all remaining tournaments have been cancelled. I also have attached the newsbreak that I prepared for the FSA Website.

I urge you to send this newsbreak attachment to the District Webmasters as well as other club websites in your District. The attachment is way on the bottom of the email.

Thank you for all help in making this difficult decision.

David P Kudro FSA President

Dear Board Members

Due to the CDC ruling the Corona Virus Disease (COVID-19) a pandemic situation, the sporting world ending their seasons, I have had to take a serious look into how the virus would or could have an effect on our FSA Shuffleboard players. Given that the majority of our players are elderly and are considered in the high risk category, to not only get the Corona Virus, but it could actually be fatal. Our immediate action is required.

As President, I have discussed this extensively with the Executive Board, and we are all in agreement that the 2019-2020 season should end at midnight March 13, 2020.

I have had several calls from FSA members that we should not put our shuffleboard players in jeopardy for the remaining three (3) tournaments. I have talked to both the Avon Park and Clearwater Presidents and being they are city owned as well as enclosed shuffleboard facilities, they DO NOT want to host P26A&B and put their shuffleboard players and the community in jeopardy.

With all the serious conditions that could occur, that there are only three (3) tournaments, our shuffleboard players are in the high risk category and all other sports venues have canceled their seasons we have to realize the possibility of our FSA members not only catching the virus, but could possibly die. This harsh reality would greatly effect us, and we would greatly regret our decision to keep shuffling as if everything was okay.

The Executive Board Unanimously RECOMMENDS that the 2019-2020 season end immediately.

Motion

Due to the seriousness of the Corona Virus and in the best interest of our FSA players and Organization, we hereby will suspend and end the 2019-2020 Season effective midnight 03/13/20. With the passage of this motion, and ending of the season, the March 14, 2020 board meeting will be postponed and all scheduled business will be conducted at the October 17, 2020 meeting.

I vote FOR the motion X

or I vote AGAINST the Motion.

Please email me separately from this email your vote to approve or disapprove this motion.

DUE TO THE TIGHT TIME CONSTRAINTS, PLEASE EMAIL ME YOUR VOTE ASAP.

When I have a majority of board members votes to determine it's passing or failure. I will email you all the results tonight.

I will write a letter to be posted immediately on the FSA website as to the decision of the board. I again want to state that the Executive Board has Unanimously for FOR this motion.

David P Kudro FSA President
